

# Project Proposal

Call for Proposals March 11 - 25, 2019

Please keep proposals to not more than three pages (excluding attachments)

## Project Title

Name of your proposed project

## Contact

Include proposing organization name, location & contact, proposal author & contact.

## Executive Summary

Briefly (1 paragraph) describe the problem(s), solution(s), expected impact/benefits, and timing. Include a clear statement of the project goal(s) and how the project will be executed.

## Problem Statement

What pressing problem does the proposed solution overcome for this outbreak response (in the field and in relation to the Priority Solution Areas listed on our website)?

## Solution

What is the solution? How will the solution/innovation be deployed/implemented? How fast can the solution be deployed in the field? How soon will we see impact? How specifically will this solution support or align with the new Strategic Response Plan? How can you assure that deployment of the solution will cause no harm to affected communities, the current Ebola response & other humanitarian efforts in the DRC?

Please provide specific objectives and key deliverables.

Objective	Deliverable	Due Date
<i>i.e. Increase speed of patient diagnosis by X%</i>	<i>i.e. X diagnostic tests delivered to EOC</i>	<i>i.e. X/X/2019</i>

You may include additional detail in attachments.

### Project Duration

Start Date:

End Date:

## Innovation

What is different, new, adaptive or innovative about this solution? Has this solution been used in the DRC or elsewhere before?

# Project Proposal

## Key Partners

Who are key partners in executing this solution? Provide information on the capabilities of partners and experience working in the current situation. If you are not a frontline organization but are partnering with one, please describe the nature of that partnership and their level of commitment to implement your solution?

## Measurement

How will success be measured? What metrics will be tracked?

## Budget

Please include the total project cost, other on-board funders (if applicable), and the specific funding request for Paul G. Allen Family Foundation. A sample template for a simple budget format below:

Item	Total Project Cost	Total Requested
Equipment		
Personnel		
Travel		
Other		
<b>Total</b>		

## Next Steps

What are the next steps for immediate implementation? Are there any time critical considerations?

## Additional Information

In order to help us expeditiously process successful proposals, please provide the following information at the time of submission: organization directors and officers, tax ID number, charity status (if known), and most recent form 990 (if available).

*\*Please feel free to add additional information as attachments to this short proposal format.*

Please recall the following parameters for proposals submitted to this challenge:

- **Innovation:** We are seeking to fund and scale best practices and innovative approaches developed by frontline partners that will have an immediate positive impact on the Ebola response in eastern DRC.
- **Frontline presence:** We are seeking applications from organizations that are: i. officially registered to operate in the DRC; ii. already operating in, or through partners in, Ituri/North Kivu, and; iii. able to demonstrate capacity to implement the proposed solution quickly in that context. We are not able to directly fund governments and/or government agencies.
- **Speed to impact:** We are seeking solutions that can be deployed, accelerated or scaled for impact, ideally within weeks of receiving funding.
- **Alignment:** Proposals should demonstrate alignment with the Ministry of Health and WHO's Strategic Response Plan for the Ebola Virus Disease Outbreak in the Provinces of North Kivu and Ituri, February-July 2019 (SRP3).
